

MINOR LOCAL IMPROVEMENT WORKS

Project Department: Drainage Services Department

Project Title: Improvement Works to Fish Ladder in Pak Ngan Heung River

Project Brief: A fish ladder at Pak Ngan Heung River was constructed in 2011 to facilitate movement of fishes across an agricultural weir. The function of the fish ladder was found impaired by misplacement of boulders / cobbles under repeated surges of river water. The project aims to improve habitat for the aquatic life in Pak Ngan Heung River by restoring the original profile and reforming steps and pools of the fish ladder.

Project Layout Plan:

小型地區改善工程

部門：渠務署

工程項目名稱：白銀鄉河魚梯改善工程

工程項目簡介：於 2011 年興建的白銀鄉河的魚梯有助魚類游經農耕堰。構成魚梯的石塊受到河水衝激而移位，削弱了魚梯的功能。本工程項目旨在透過恢復魚梯的縱向走線及重整梯級的石塊，以改善水生生物的生境。
