

MINOR LOCAL IMPROVEMENT WORKS

Project Department: Drainage Services Department

Project Title: Local extension works for existing sewerage system at Shek Tsai Po Street, Tai O

Project Brief: Pang Uk (stilt houses) are distinctive structures in Tai O. However, the sewer pipes of some of these stilt houses have not been connected to the public sewage system over the years. The project aims to improve the water quality in the waterbodies through local extension of existing sewerage system for facilitating the sewer connection of some of the stilt houses at Shek Tsai Po Street, so as to reduce direct discharge of wastewater to the waterbodies.
