

MINOR LOCAL IMPROVEMENT WORKS

Project Department: Water Supplies Department

Project Title: Animal Escape Facilities in Catchwaters in South Lantau

Project Brief: Catchwaters are generally deep with steep walls that animals fallen into them cannot escape easily. The project aims to provide escape facilities at suitable locations along Shek Pik Catchwaters for trapped wild animals like small-size mammals, reptiles and amphibians to escape, which can bring about conservation of wildlife on Lantau.

Project Layout Plan:

小型地區改善工程

部門：水務署

工程項目名稱：南大嶼山引水道的動物逃生設施

工程項目簡介：引水道一般有較深的深度而且兩側牆壁陡峭，跌入其中的動物無法輕易逃離。本工程項目旨在沿石壁引水道合適位置提供逃生設施，令被困的小型哺乳類動物、爬行類動物及兩棲類動物等野生動物逃離引水道，從而保育大嶼山的野生動物。
