

MINOR LOCAL IMPROVEMENT WORKS

Project Department: Water Supplies Department

Project Title: Biodiversity Enhancement by installing Ecological Floating Platforms in Shap Long Irrigation Reservoir, South Lantau

Project Brief: Shap Long Irrigation Reservoir is one of the hiking spots located adjacent to Lantau South Country Park with various species of living organisms. This project aims at creating a suitable habitat in the irrigation reservoir for terrestrial and aquatic animals, enhancing the biodiversity and the integrity of the ecosystem.

Project Layout Plan:

小型地區改善工程

- 部門：**水務署
- 工程項目名稱：**在南大嶼山十壟灌溉水塘安裝生態浮島以提升生物多樣性
- 工程項目簡介：**十壟灌溉水塘是行山地點之一，毗鄰南大嶼郊野公園，生物種類繁多。該計畫旨在灌溉水塘中為陸地和水生動物創造合適的棲息地，並增強生物多樣性和生態系統的完整性。
